Subject: EPA RERT Air Sampler Summary July 1, 2011
Date: 07/01/2011 04:50 PM
Attachments: [Las Conchas Fire Air Sampler Placement June 30 2011_START Updated.docx](#)

Gregg thanks for the document.....based on the samples that START has already taken and the information they gathered at those locations, they have already created Location IDs and Sample nomenclature for those locations. I am including an updated Summary with START's Location IDs and lat longs for Stations 1-6. It also has a Sample Nomenclature Example included. If you have any questions, please contact me....
